

MTT 1510 Credit

Products for Mobile Merchants

Product Overview

WAY Systems' Mobile Transaction Terminal (MTT) combines low-cost Mobile phone technologies with the capabilities of a point-of-sale (POS) terminal. The MTT integrates the security and functionality of a traditional POS terminal with the convenience of a mobile phone to create a terminal that accepts payment any where at any time.

Product Features and Benefits

- Works virtually anywhere
- Best mobile coverage available (GPRS)
- Supports all major processors
- Customer support included (24/7 Helpdesk)
- Telephone training available
- Shipped ready "Out of the Box" with set up and activation completed
- Easy-to-use retail mobile credit application
 - Optionally supports tip (retail), toll, invoice #, cash receipt, AVS, CVV2, Amex CID (as supported by your processor)
- Antenna accessory available

Actual Size

MTT 1510 Credit

Product Specifications

TRI-band GSM 900 / 1800 / 1900 MHz

POS Transaction Storage

Stores 60-120 transactions

POS Processor

High performance 16 bit microprocessor optimized for low power consumption

Security

MULTOS 4.06+ Link Security Module
PKI (for key exchange between MTT and Server)
3DES Encryption

Printer (optional)

Mobile thermal printer, infrared communications

Keypad/Pinpad

Uses telephone style keys for data entry

Magnetic Stripe Card Reader

Tracks 1,2 and 3

Smart Card Reader

EMV Level 1
EMV Level 2 Visa Smart POS integration in progress

Battery

Up to 200 hours stand-by time
Up to 300 transactions per charge

Dimensions

Height: 4" (102 mm) x
Width: 2.1" (54 mm) x
Depth: 1.2" (30 mm)

Weight

Total Weight: 5 oz. (142g)
Printer: 8.8 oz. (250g)

Supports the WAY mobile printer (optional)
Small, Lightweight and Easy-to-Use

Accessor TM technology used by WAY Systems, Inc., is owned by and licensed from Fractal Commerce, Inc. The terminal technology is covered by worldwide Patents and Patents pending derived from the PCT application W09966752

S40 Mobile Printer

Products for Mobile Merchants

Product Features and Benefits

- Small size & light weight for true mobility
- High speed
- Easier paper loading by clamshell design
- Battery duration: 1 hour continuous printing
- Accessory options
- Quick change rechargeable battery
- Works with WAY Systems Mobile Transaction Terminals (MTTs)

Adaptable to other applications using standard PC printer drivers.

S40 Mobile Printer

Product Specifications

Thermal printer

Easy paper loading by clamshell design

Small size:

3 x 4 x 1.3 in.(75 x 103 x 34mm)

Supports text and graphic printing

Light weight:

8.8 oz. (250g) for true mobility

Multi-Language Character/Font Support

High speed:

2 in/sec (50mm/sec)

Approx. 17 lines/sec at 8 pt font size

Serial (RS-232C),
IrDA Ver 1.0(SIR) Interface

Battery duration:

1 hour continuous printing

High-resolution:

203dpi (8dots/mm)

Rechargeable 7.2VDC 880mAH (Ni-MH)

Small, Lightweight and Easy-to-Use

Optional Printer Accessories

1. Paper

2. Printer holster with belt clip

3. Spare printer battery

4. 12V power adapter

5. Spare 110V AC charger

Accessor TM technology used by WAY Systems, Inc., is owned by and licensed from Fractal Commerce, Inc. The terminal technology is covered by worldwide Patents and Patents pending derived from the PCT application W09966752

Here's what merchants are saying about the MTT

MTT 1560

Karen Cooper, A&A Home Repair & Remodeling

We are the 3rd largest repair company in [the] area. By accepting credit cards, we've become more valuable to the customers, and it gives them peace of mind because I can provide them with an authorization number and receipt on-the-spot. Using the MTT helps give me a competitive advantage.

John Feola, Caribbean Petroleum

We provide marine fuel for boats and yachts in the Virgin Islands. We have to maintain a professional image because our customers expect it. Our sales average from \$2,000-\$3,000. Customers are impressed when we use the MTT. They are amazed when we swipe the card, get authorization and have the capability to provide them with a printed receipt. Makes us look like we've got it together...and we do!

Kerry Hayward, Oreck Commercial

Our Plymouth office sells Oreck vacuums to commercial businesses. We attend about 300 shows a year all over the country. Before we had the MTT, our agents would take down credit card numbers and bring them back to the office for processing. However, this was a huge inconvenience for us because shows usually lasted a week, and we would have to wait until they came back to process the transaction and get our money.

Mark Goscila, Normark Ent Wind Vest

Using the MTT saves us thousands of dollars. Before we had the MTT to get instant authorizations, we once lost \$2,300 because of accepting a bad credit card.

Jeffrey Patrick, Oahu Airport Shuttle

My initial attraction to the MTT was the compactness of the unit. I can put it in my pocket it, pull it out, swipe and be done.

Sue Oseland, Osiris Beads & Import

During the convention in Philadelphia coverage was terrible. Most other merchants couldn't get a signal the entire weekend, while my MTT was able to connect most of the time I was there. Other merchants were coming to my booth to borrow my MTT.

Richard Dicapua, Celtic Dragon

I would say our revenue has increased by 50% once we started accepting credit cards using the MTT.
